

To,

October 17, 2022

Mr. Amit Kumar,  
Deputy Director Administration (Drugs),  
Central Drugs Standard Control Organisation (CDSCO),  
Directorate General of Health Services,  
Ministry of Health & Family Welfare,  
Government of India FDA Bhavan, ITO,  
Kotla Road, New Delhi -11000

Dear Mr. Kumar,

1. I write on behalf of Mr. Prashant Reddy T. and myself in response to your menacing notice dated October 15, 2022 sent to us at 6:06 PM, threatening unspecified action against us for an interview we gave to *India Today* regarding the recent tragedy in The Gambia that took lives of 66 children because of an adulterated cough syrup manufactured by an Indian pharmaceutical company.
2. I would like to make it clear that we do not intend to offer an apology of any kind as demanded in your notice.
3. At the very outset, I strongly object to your bald threat that the 'CDSCO' "will not hesitate to exhaust every available recourse including all possible legal options." I am shocked to find that a public functionary of your rank and stature would even contemplate extra-legal measures only to gag us from discussing the Gambian tragedy. One would have hoped that the CDSCO would have devoted its resources to investigate the company responsible for deaths of 66 children and ensure that no other child succumbs because of poisonous drugs. Your specific objections to the interview are baseless as you will find later in this reply, and we hope that CDSCO would also defend their statements on the Gambian tragedy on oath before a court of law. Having said that, we reserve our right to approach the Supreme Court or any high court seeking a declaration that the threatening notice under reply constitutes a brazen attack on our fundamental right to free speech under Article 19(1)(a) of the Constitution.
4. Apart from our legal response, we also seek to put to rest the misinformation in the legal notice that is under reply.

**A. Who can grant a COPP?**

5. To begin with, we will tackle the issue of the competent authority that is responsible for granting a Certificate of Pharmaceutical Product (COPP) for export of medicines by a manufacturer located in India. From your notice and the comments being in the media, an impression has been created that *first* the CDSCO has no role to play in the issuance of COPP since it is the responsibility of

the state government and *second* that no COPP was issued for the four cough syrups that are at the center of the adulteration scandal in The Gambia. We will address each issue separately.

6. First, as per the WHO's [Guidelines on the Implementation of the WHO certification scheme on the quality of pharmaceutical products moving in international commerce](#) available on the WHO website (**Annexure A**), the basic eligibility criteria for participating in the certification scheme (of which COPP is the final product) is the requirement of having a national drug regulator capable of inspecting facilities for GMP compliance, examining premises and records and certifying products. The exact wording of the criteria is reproduced below in the whole:

*“a national pharmaceuticals inspectorate, operating as an arm of the national drug regulatory authority, and having the technical competence, experience and resources to assess whether GMP and other controls are being effectively implemented, and the legal power to conduct appropriate investigations to ensure that manufacturers conform to these requirements by, for example, examining premises and records and taking samples”*

7. It is because of this requirement that in June, 2009 at the 40<sup>th</sup> meeting of the Drugs Consultative Committee (DCC), it was decided that the Drug Controller General of India (DCGI), who also heads the CDSCO, will take over from the state drug controllers, the job of issuing COPPs for export (**Annexure B**). We reproduce below the relevant extract from the minutes of the DCC:

*“DCG (I) briefed the members that WHO under its guidelines (TRS No.823, 863 and 908) recommends the issue of Certificate of Pharmaceutical Product (COPP) and Model Certificate of Good Manufacturing Practices for medicinal products moving in the international trade by the National Regulatory Authority of the producing country. There is no provision under the Drugs and Cosmetics Act and Rules made thereunder for the grant of COPPs. The grant of these certificates was delegated to the State Licensing Authorities by the CDSCO earlier in view of the shortage of man power in CDSCO.*

*It has been observed that the certificates issued by the States are many a time, at variation to the guidelines of WHO Certification Scheme. Even the prescribed formats are not adhered to. WHO in its guidelines does not recommend the use of WHO name or logo in the title of such certificates. WHO has written to the office of DCG (I) objecting to giving the title of “WHO GMP Certificate” by the State Licensing Authorities. For the purpose of issuance of COPP certificate, it is expected by WHO that National Regulatory Authority (CDSCO) has verified that medicinal products covered in the certificate are consistently produced by the firm and conform to the GMP and quality standards prescribed in WHO Technical Reports Series. It is further observed that these certificates are being issued on the basis of interpretations which vary from State to State. The availability of large variants of such certificates creates confusion in the minds of regulatory authorities of importing countries. CDSCO is now being strengthened on a fast track basis with the pro active support of the Ministry of Health and Family Welfare. 63 Drug Inspectors would be joining CDSCO by October 2009 after going through the process of selection through the UPSC taking the total strength to 94. Under a new proposal it is further proposed to add another 106 Drug Inspectors by the end of 2010 leading to a total strength of 200 Drug Inspectors. The Zonal offices are being upgraded and expanded. The Central Government would therefore, be having enough manpower to handle the responsibility and grant COPP as per WHO norms and fulfil the international obligation effectively.*

*DCG (I) informed the committee that a considered decision has been taken that COPP would be issued by the DCG (I) office for the purpose of uniformity and compliance to WHO guidelines.*

*Some of the State Drug Controllers were of the strong view that a status quo be maintained as large number of these certificates is being issued by them to fulfil needs of the drug industry for the purpose of export.*

*Dr. D. Roy, DDC i/c, South Zone stated that the issuance of COPP was only a delegated responsibility from Centre to State and the certificates were issued only after the joint inspection of the manufacturing facilities by the central and State Drug Inspectors. As such there will be no difficulty by the zonal offices to conduct independent inspections as per WHO norms and issue certificates in the prescribed formats to maintain uniformity.*

*The State Drug Controllers of Maharashtra and Delhi supported the proposal stating that the primary responsibility in the International commerce lies with the Central Government. The Drugs Controller, Delhi was further of the view that under WTO agreement, it would be necessary that such certificates are issued by an identified National Regulatory Agency i.e. office of DCG (I) recognized by the other member countries on reciprocal basis.*

*As per agenda and the statement made by DCG (I), the COPP certificates or model certificate of GMPs would henceforth be issued by the central agency i.e. DCG (I) for the purpose of uniformity and compliance to WHO guidelines. The system of granting the certificates by CDSCO would be informed to WHO and the State Drug Control Authorities accordingly."*

8. It is obvious from the above extract of the minutes that the DCGI was assuming the responsibility of issuing the COPP. This takeover of the COPP function by the DCGI was challenged before the Karnataka High Court and upheld [via a judgment dated 4<sup>th</sup> December, 2015 \(Annexure C\)](#).

9. The judgment records the following important submission of the CDSCO to the Court defending its takeover of the COPP function by the DCGI:

*"The first respondent has contested the petition and it is stated that the petition proceeds on an incorrect and misleading premise. It is emphasized that the WHO has recognized only the Drugs Controller General of India as the Competent Authority with respect to issuance of COPP. It is asserted that since the year 1995, as decided at the Drugs Consultative Committee meeting, a statutory body under the DC Act held on 24.2.1995, where all the State Drug Controllers, as members were present, there was to be only one authority, namely, DCGI to issue the COPP for the pharmaceutical products exported. It is a voluntary function of the National Regulatory Authority to implement the WHO Scheme in India, to ensure that the quality of the products conforms to international standards. The provisions of the Act and Rules do not prescribe that the Second respondent issue the COPP. And again at a meeting of the DCC on 17.3.1998, it was agreed that till such time the issuance of certificates at the national level commences by the National Regulatory Authority, the State Drug Control Authorities would process the pending applications. This measure was warranted as it had been noticed by WHO that there was variance in issuance of COPP on account different interpretations of the guidelines by the State Drug Controllers of different states."*

10. The judgment also records the following interesting communications between the WHO and the DCGI wherein the former specifically congratulates the latter for putting in place a measure for centralizing the power to issue COPPs with the

CDSCO. The relevant extracts of this congratulatory letter from the WHO are reproduced below:

“3. Issuing of "Certificate of Pharmaceutical Product approvals" (COPP) performed by the Central Drugs Standard Control Organization (CDSCO) only, whereas in the past it was decentralized....

We appreciate the steps taken by the National Regulatory Authority of India to implement the above recommendations from WHO. The above decisions will help DCG(I) to comply with globally recognized international standards, particularly points 3 and 6, that we believe are critical to the quality of products being exported out of India.”

11. As per the CDSCO guidelines reported [in the press in 2009](#), a COPP certificate would be granted by zonal offices of the CDSCO on behalf of the DCGI, after central drug inspectors have inspected the facility. However, as noted by the Karnataka High Court, there were some transitory difficulties in the CDSCO taking over the function and it appears that while the State Drug Controller continued to issue the COPP, they could not do so without the central drug inspectors from the CDSCO first conducting an inspection and submitting a report to the State Drug Controller. A relevant extract from the judgment (as recorded from a letter by the then DCGI):

*“The procedures indicate that an applicant seeking WHOGMP Certificate has to make an application induplicate, forward one to concerned zonal office and the other to concerned state. The zonal officers based on the number of applicants received finalises the programme of inspections and the states depute their officers so that joint inspection is carried out by the Central and State Drugs Inspectors together and also based on the need have an expert in the inspection team like cases of vaccines etc. The responsibility of writing the report is with the Central drugs Inspector and salient observations are recorded in the standardized check list prepared for the purpose.*

*Based on the recommendations of the inspection team, the State Drugs Controller, issues the COPP to the applicant with an intimation to the zonal office. The validity of the GMP certification is restricted initially to be granted for 2 years. Under special circumstances it can be extended for one more year.”*

12. This transitory measure appears to never have been remedied. As a result, although state drug controller conducts the ministerial act of issuing the COPP, the very basis of issuing the COPP is the inspection by central drug inspectors from the CDSCO. This is why, Maiden Pharmaceuticals appears on the list of [WHO-GMP Certified Manufacturing Units for COPP](#) in various states of India. It is therefore disingenuous, if not misleading for the CDSCO to claim that state drug controllers have issued COPP and that the CDSCO's roles is confined to merely publishing on its website the list of facilities based on the COPPs issued by the state drug controller. If in fact this true, it would mean that the CDSCO has been misleading the WHO on its compliance with the COPP program.

**B. Did the four cough syrups exports to The Gambia require COPPs and did India issue COPPs to these four cough syrups?**

13. We would like to make it clear that nowhere in our interview did we state that either the CDSCO or the state drug controller actually issued a COPP for the 4 cough syrups at the center of the scandal in The Gambia. Our assertion was limited to the fact that Maiden Pharmaceutical's facility in Sonapat was on the GMP-COPP facilities certified by the CDSCO. Having said that, we must point out that as per Section 34 of the Gambian [Medicines and Related Product Act 2014](#), a COPP is required for all products imported into Gambia. We reproduce the section in its entirety:

*"34. Certificate of Imported Medicines: Where a medicine or related product is imported as a finished product, an application for the registration of that article shall be accompanied by a certificate of analysis or certificate of pharmaceutical product for medicines issued by the competent regulatory agency of the exporting country".*

In light of this requirement in The Gambian Law, we are surprised by the government's assertion that the four cough syrups were exported from India to The Gambia without a COPP. In any event, we intend to investigate this issue further with the appropriate authority in The Gambia.

**C. Regarding imaginary export licences**

14. In your notice, you have stated that "No drug can be sold in the domestic market on the basis of a license which has been issued for the drug for export purpose only". There is no such restriction on exports in the Drugs & Cosmetics Act, 1940. Precisely to fill this loophole, the Ministry of Health proposed the [Drugs & Cosmetics \(Amendment\) Bill 2007](#) and [Drugs & Cosmetics \(Amendment\) Bill 2013](#) to authorize the CDSCO to regulate drug exports. In the law as is written now, there is no provision which requires pharmaceutical companies to procure a specific licence from any drug regulatory authority in India to export a drug. If the Drugs & Cosmetics Act 1940 or rules actually had such a provision, you would have quoted the same in your notice. Your silence on the provision of law in this regard speaks volumes.

**D. Regarding your faux outrage over our comments about the judiciary**

15. In your notice, you have claimed that we have "contemptuously" accused the judiciary of being lenient towards pharmaceutical companies for violating the Drugs & Cosmetics Act 1940. You have also stated that our statements regarding the judiciary are a "malicious attempt to lower the dignity of the courts". Our statements on *India Today* interview are based on an analysis of several judgments court. We urge you to read Chapter 3 of our book, *The Truth Pill: The Myth of Drug Regulation in India*, where we document multiple instances of judicial magistrates in several states sentencing pharmaceutical companies

found guilty of manufacturing NSQ drugs to “simple imprisonment till the rising of the court”. Unlike your caustic response to the public criticism, the Indian judiciary welcomes fair and reasonable criticism of their decisions. The Hon’ble Supreme Court in *Rama Dayal Markarha vs State Of Madhya Pradesh*, 1978 SCR (3) 497

*Fair and reasonable criticism of a judgment which is a public document or which is a public act of a Judge concerned with administration of justice would not constitute contempt. In fact, such fair and reasonable criticism must be encouraged because after all no one, much less Judges, can claim infallibility. A fair and reasonable comment would even be helpful to the judge concerned because he will be able to see his own shortcomings, limitations or imperfection in his work. The society at large is interested in the administration of public justice because in the words of Benjamin Cardozo, "the great tides and currents which engulf the rest of men do not turn aside in their course and pass the judges by" (Benjamin N. Cardozo- The Nature of the Judicial Process, p. 168). Such permissible criticism would itself provide a sensible answer to sometimes ill-informed criticism of judges as living in ivory towers.*

16. To conclude, we demand that your office withdraws the notice under reply immediately and tender an unconditional apology to both myself and Mr. Prashant Reddy T failing which we would be forced to take appropriate legal recourse against the intimidatory and groundless threats.

Sincerely,

Dinesh S. Thakur

# Guidelines on the Implementation of the WHO certification scheme on the quality of pharmaceutical products moving in international commerce

---

## Guidelines

---

[Provisions and objectives](#)

[Requesting a certificate](#)

[Issuing a certificate](#)

[Notifying and investigating a quality defect](#)

[References](#)

[Glossary](#)

## Eligibility for participation

---

2.1 Any Member State intending to participate in the Scheme may do so by notifying the Director-General of the World Health Organization, in writing, of:

- its willingness to participate in the Scheme;
- any significant reservations it intends to observe relating to this participation; and
- the name and address of its national drug regulatory authority or other competent authority.

2.2 These notifications will be subsequently announced in the monthly WHO Pharmaceutical Newsletter. An updated consolidated list will be published annually in the Newsletter and will be available to governments at other times from: the Division of Drug Management and Policies, WHO, 1211 Geneva 27, Switzerland. (See also section 3.3)

2.3 A Member State may opt to participate solely to control the import of pharmaceutical products and active substances. This intention should be stated explicitly in its notification to the World Health Organization.

2.4 A Member State intending to use the Scheme to support the export of pharmaceutical products should first satisfy itself that it possesses:

- an effective national licensing system, not only for pharmaceutical products, but also for the responsible manufacturers and distributors;
- GMP requirements, consonant with those recommended by WHO, to which all manufacturers of finished pharmaceutical products are required to conform;
- effective controls to monitor the quality of pharmaceutical products registered or manufactured within its country, including access to an independent quality control laboratory;
- a national pharmaceuticals inspectorate, operating as an arm of the national drug regulatory authority, and having the technical competence, experience and resources to assess whether GMP and other controls are being effectively implemented, and the legal power to conduct appropriate investigations to ensure that manufacturers conform to these requirements by, for example, examining premises and records and taking samples;
- administrative capacity to issue the required certificates, to institute inquiries in the case of complaint, and to notify expeditiously both WHO and the competent authority in any Member State known to have imported a specific product that is subsequently associated with a potentially serious quality defect or other hazard.

2.5 Each Member State assumes the responsibility to determine, through a process of self-evaluation, whether it satisfies these prerequisites. The Scheme contains no provision, under any circumstance, for external inspection or assessment, either of a competent national authority or of a

manufacturing facility. However, should a Member State so wish, it could approach WHO, or a well-recognized Drug Regulatory Authority, to occasionally delegate consultants to act as advisors in the course of national inspections, and inspector training activities

**MINUTES OF THE WHO WORKSHOP ON DISSEMINATION OF INFORMATION ON REGULATORY AFFAIRS AND 40<sup>TH</sup> MEETING OF THE DRUGS CONSULTATIVE COMMITTEE HELD ON 29<sup>TH</sup> JUNE, 2009 IN THE COMMITTEE ROOM, FDA BHAVAN, KOTLA ROAD, NEW DELHI – 110002.**

**(List of Participants is at Annexure I)**

**INAUGURAL DELIBERATIONS**

WHO Workshop on Dissemination of information on regulatory affairs and 40th Meeting of the Drugs Consultative Committee was held on 29<sup>th</sup> June, 2009 in the Committee Room, FDA Bhawan, Kotla Road, New Delhi-110002. Meeting was attended by Shri Debasish Panda, Joint Secretary Ministry of Health and Family Welfare, Shri O.P.S Malik, Director General, Narcotic Control Bureau, Smt. Jagjit Pavadia, Narcotic Commissioner and Dr. L.S. Chauhan, DDG (TB), DGHS.

Dr. Surinder Singh, Drugs Controller General (India) and Chairman, Drugs Consultative Committee (DCC), after welcoming the members stated that one of the major issue before the DCC was to find ways and means to meet the international obligations of furnishing statistics in respect of production, consumption, import and export of narcotic drugs and psychotropic substances to International Narcotic Control Board (INCB), Vienna. In view of the grave urgency of the matter, Director General, NCB considered it necessary to have direct interaction with the State Licensing Authorities so that the requisite information is collected in time and in turn forwarded to INCB, Vienna through the Narcotic Commissioner. DCG (I) then requested Shri O.P.S. Malik, DG, NCB to address the members.

Shri Malik stated that India is a signatory to the UN Convention and it is an international obligation on the country to furnish statistics in respect of production estimates, consumption, import and export of narcotic drugs and psychotropic substances in the country to INCB, Vienna in time. This information is required to be furnished in seven prescribed Forms. The question of timely furnishing of information

has been taken at highest level between the Secretary Health and Family Welfare, Secretary Home and Secretary Revenue and the State Drug Control Authorities have been requested many times to adhere time schedules in respect of furnishing the requisite information. Failure to furnish the information is viewed seriously by INCB. The member country unable to provide the specific information is put in the 'consultation zone'. This leads to separate discussions by INCB with the country at the international forum and the country gets isolated. Any adverse remark by INCB would lead to stoppage of exports and imports of narcotic drugs and psychotropic substances from that country. Such a situation is not acceptable. This being a statutory duty of the country to furnish the requisite information to INCB in the prescribed Forms, an all out efforts are required to be made collect and furnish the requisite information. To be specific it is the Forms 'B', 'C' & 'P' which are required to be filled after getting information from the State Drugs Controllers. States are required to give top priority to collect and provide the information to the Drugs Controller General (India) for onward transmission to the Narcotic Commissioner.

The information to be furnished should be *Accurate, Comprehensive* and *in Time*. Together the three components are abbreviated to be called as **ACT**. As providing the requisite statistics is a binding obligation and the States should prepare a reporting system and ensure that the information is collected and submitted in prescribed format to the Drugs Controller General (India) for collation. He further requested that the States which still have not furnished the current information should do so immediately so that the deadline is met in time.

The State Drug Controllers in reply stated that the Forms are so complicated that in the absence of any guidelines it is very difficult to fill them accurately. Information on actual production and consumption of formulations of these drugs is very difficult to obtain from the manufacturers for the purpose of collation. It is possible to give information in respect of basic bulk drugs only.

DG, NCB then stated that his department would like to conduct zonal workshops in each zone to educate the State Drug Controllers and develop a system for collecting information and filling of the Forms. Doubts in respect of collection of specific information would be cleared during the discussions. Zonal offices of

CDSCO could co-ordinate in having such workshops. However, for the purpose of any clarification otherwise required by the State Drugs Controllers, they may contact the following officer in the office of Narcotic Control Bureau, R.K. Puram, New Delhi:-

**Shri A.P. Siddiqui, Deputy Director, I&I, NCB, New Delhi (Tel No.26185226)**

Smt. Jagjit Pavadia stated that the department of revenue is considering a proposal of online registration of manufacturers, wholesalers and retailers of narcotic drugs and psychotropic substances under the department of revenue. A scheme is being developed in cooperation with the National Informatics Centre (NIC). This would facilitate locating and observing the trends of the consumption of narcotic drugs and psychotropic substances in the specific regions.

Drugs Controller, Kerala brought to the notice of the narcotic Commissioner that 'Pethidine' is not available in the country and the Narcotic Commissioner should take steps to make the drug available in the country.

Shri Debasish Panda, Joint Secretary in his address brought to the notice of the State Drug Controllers that India has become one of the major producers of drugs in the world. Pharma sector has huge potential for growth. India is at present 4<sup>th</sup> largest producer of drugs in the world volume wise. Thus India is poised to be the **Pharmacy of the World** in the near future. At present India is manufacturing drugs worth Rs.85,000 crores of which drugs worth Rs.35,000 crores are exported. India has 119 USFDA approved manufacturing sites in the country. An audit of Indian National Regulatory Authority in respect of vaccine regulatory system was being conducted in the country by WHO since 2003. WHO was concerned about the adequacy of staff, autonomy of regulatory authority, dossier review system, recruitment and training, feedback on adverse effects of immunization etc. Initially WHO was not satisfied in their report in January 2008. However, with initiatives taken from March to December 2008 with the help of WHO like introduction of CTD format, recruitment, training of manpower and development of SOPs, guidance documents and checklist etc., India has been able to meet the expectations of WHO by December 2008. During the assessment in April 2009 Indian NRA scored 100%

on all critical indicators. The developments in the country are being noticed in the international forums and India's voice is being heard with respect, be at WHO assembly or ICH meetings. It is therefore, necessary that the regulatory infrastructure in the States is also brought to International level.

He further informed that future programmes include regulation of medical devices under the Drugs and Cosmetics Act, registration of clinical research organization and strengthening of Pharmacovigilance for having a data base on use of drugs generated in the country. The office of DCG (I) has initiated time lines for granting various approvals granted by his office. A major step is being taken to start **e-governance** under drug regulatory system and also to start **overseas inspections** of the manufacturing sites from where the drugs are imported into the country. It is also envisaged to reach out to the regulatory agencies of other countries for collaboration in regulatory practices so that India develops a world class regulatory frame work.

Select State Drug Control officials would be provided training at National as well as international level to give them exposure about the State of art regulatory activities followed internationally.

## **AGENDA NO.1**

### **FURNISHING OF ANNUAL STATISTICS IN RESPECT OF PRODUCTION, CONSUMPTION, IMPORT AND EXPORT OF NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES COVERED UNDER THE NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES ACT, TO INCB, VIENNA**

DCG (I) stated that the agenda has already been discussed during the address of the DG, NCB, who had kindly agreed to have workshops at regional level with the State Drug Control Authorities for sorting out the difficulties faced by them in filling the forms or in collection of the information as required by INCB, Vienna. The details of the workshops would be worked out in consultation with NCB and the zonal officers would be informed accordingly for facilitating the workshop. He however, requested that the State Drug Controllers who have not yet furnished the current requisite statistics may kindly do so on priority basis so that the information is furnished to INCB, Vienna in time.

## **AGENDA NO.2**

### **AMENDMENT TO THE DRUGS AND COSMETICS RULES FOR INCLUSION OF NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES UNDER THE CLAA SCHEME AND DEVISING A SYSTEM FOR COLLECTION OF INFORMATION OF MANUFACTURE, IMPORT AND EXPORT OF THESE DRUGS IN THE COUNTRY**

DCG (I) briefed the members that on the recommendations of DTAB in 55<sup>th</sup> and 56<sup>th</sup> meetings held on 6<sup>th</sup> July 2007 and 16<sup>th</sup> January 2008 respectively, the Ministry of Health and Family Welfare has published draft rules for amending the Drugs and Cosmetics Rules for the inclusion of narcotic drugs and psychotropic substances under the CLAA scheme. Once the rules are in place a system would be devised for collection of information required in a time bound manner for submission to INCB, Vienna. The State Drug Controllers may forward their comments to the Secretary, Ministry of Health and Family Welfare, Nirman Bhawan, New Delhi within the stipulated time for the consideration of the Government of India, Ministry of Health and Welfare.

## **AGENDA NO. 3**

### **CONSIDERATION OF THE PROPOSAL TO PREPARE A NATIONAL LIST OF LICENCED DRUG MANUFACTURERS IN THE COUNTRY**

DCG (I) while introducing the agenda stated that even though India is one of the largest producers of drugs in the world, but it does not have a national list of drug manufacturers licensed in the country. As licences are granted by State Licensing Authorities in the country, the information has to be consolidated at the State level for preparing the national list of manufacturers in the country.

During the discussions it was felt for preparing such a list a common format and software will have to be prepared for the purpose. The States would then be able to consolidate information in a uniform manner. The information could be consolidated at the zonal level also as many of the States may not be having basic hardware or software facilities required for compilation.

The committee decided to constitute a sub committee comprising of Drugs Controllers of Karnataka, Kerala, Delhi and Nagaland for preparing a format in collaboration with NIC or any such agency for preparation of software and categorization of the products licensed under various licences issued. The committee will give its reports in two months time and the meetings of the committee would be facilitated by the North Zone office of CDSCO.

#### **AGENDA NO.4**

### **GRANT OF CERTIFICATES UNDER WHO CERTIFICATION SCHEME BY THE NATIONAL REGULATORY AUTHORITY I.E DRUGS CONTROLLER GENERAL INDIA**

DCG (I) briefed the members that WHO under its guidelines (TRS No.823, 863 and 908) recommends the issue of Certificate of Pharmaceutical Product (COPP) and Model Certificate of Good Manufacturing Practices for medicinal products moving in the international trade by the National Regulatory Authority of the producing country. There is no provision under the Drugs and Cosmetics Act and Rules made thereunder for the grant of COPPs. The grant of these certificates was delegated to the State Licensing Authorities by the CDSCO earlier in view of the shortage of man power in CDSCO.

It has been observed that the certificates issued by the States are many a time, at variation to the guidelines of WHO Certification Scheme. Even the prescribed formats are not adhered to. WHO in its guidelines does not recommend the use of WHO name or logo in the title of such certificates. WHO has written to the office of DCG (I) objecting to giving the title of **“WHO GMP Certificate”** by the State Licensing Authorities. For the purpose of issuance of COPP certificate, it is expected by WHO that National Regulatory Authority (CDSCO) has verified that medicinal products covered in the certificate are consistently produced by the firm and conform to the GMP and quality standards prescribed in WHO Technical Reports Series. It is further observed that these certificates are being issued on the basis of interpretations which vary from State to State. The availability of large variants of such certificates creates confusion in the minds of regulatory authorities of importing countries. CDSCO is now being strengthened on a fast track basis with the pro active support of the Ministry of Health and Family Welfare. 63 Drug Inspectors would be joining CDSCO by October 2009 after going through the process of selection through the UPSC taking the total strength to 94. Under a new proposal it is further proposed to add another 106 Drug Inspectors by the end of

2010 leading to a total strength of 200 Drug Inspectors. The Zonal offices are being upgraded and expanded. The Central Government would therefore, be having enough manpower to handle the responsibility and grant COPP as per WHO norms and fulfil the international obligation effectively.

DCG (I) informed the committee that a considered decision has been taken that COPP would be issued by the DCG (I) office for the purpose of uniformity and compliance to WHO guidelines.

Some of the State Drug Controllers were of the strong view that a status quo be maintained as large number of these certificates is being issued by them to fulfil needs of the drug industry for the purpose of export.

Dr. D. Roy, DDC i/c , South Zone stated that the issuance of COPP was only a delegated responsibility from Centre to State and the certificates were issued only after the joint inspection of the manufacturing facilities by the central and State Drug Inspectors. As such there will be no difficulty by the zonal offices to conduct independent inspections as per WHO norms and issue certificates in the prescribed formats to maintain uniformity.

The State Drug Controllers of Maharashtra and Delhi supported the proposal stating that the primary responsibility in the International commerce lies with the Central Government. The Drugs Controller, Delhi was further of the view that under WTO agreement, it would be necessary that such certificates are issued by an identified National Regulatory Agency i.e. office of DCG (I) recognized by the other member countries on reciprocal basis.

As per agenda and the statement made by DCG (I), the COPP certificates or model certificate of GMPs would henceforth be issued by the central agency i.e. DCG (I) for the purpose of uniformity and compliance to WHO guidelines. The system of granting the certificates by CDSCO would be informed to WHO and the State Drug Control Authorities accordingly.

## **AGENDA NO.5**

### **CONSIDERATION OF THE PROPOSAL TO AMEND RULE 127 OF THE DRUGS & COSMETICS RULES, TO PERMIT USE OF COLOURS SPECIFIED UNDER SCHEDULE Q TO BE USED IN DRUGS WHICH ARE APPLIED ON INANIMATE SURFACES.**

The members were briefed that a proposal has been received by the office of DCG (I) for the amendment of rule 127 of the Drugs and Cosmetics Rules so that the colours listed in Schedule Q for use in cosmetics may be permitted to be used in drugs meant for application on inanimate surfaces such as disinfectants.

DCC after deliberations agreed to the proposal for the amendment of the rule 127 of the Drugs and Cosmetics rules.

## **AGENDA NO. 6**

### **NON RECEIPT OF TESTING CHARGES FROM VARIOUS STATE DRUG CONTROL DEPARTMENTS BY THE CENTRAL DRUG LABORATORY, KOLKATA**

The Director, CDL, Kolkata informed the members that many of the State Drugs Controllers have not paid the testing charges for the samples sent by the Drug Inspectors of these States and tested by CDL, Kolkata. The balance amount as on 1<sup>st</sup> April 2009 has aggregated to Rs.43,51,755. The situation may give rise to objection by CAG during the audit. He requested the States to clear their arrears at the earliest otherwise it would be difficult for them to accept further samples from the defaulting States.

The members agreed to clear their outstanding dues. They however, requested that the CDL, Kolkata may send fresh requisition along with the details of the payments due for expediting the matter.

The Director CDL agreed to send detailed letters to each of the defaulting States.

## **AGENDA S-1**

### **CONSIDERATION OF THE GUIDELINES FOR TAKING ACTION ON SAMPLES OF DRUGS DECLARED SPURIOUS OR NOT OF STANDARD QUALITY IN THE LIGHT OF ENHANCED PENALTIES UNDER THE DRUGS AND COSMETICS (AMENDMENT) ACT, 2008**

DCG (I) briefed the members that the Drugs and Cosmetics (Amendment) Act, 2008 was passed by the Parliament on 5<sup>th</sup> December 2008 under which penalties for manufacture of spurious and adulterated drugs have been enhanced. Offences related to adulterated and spurious drugs have been made cognizable and non-bailable. In order to ensure that the enhanced penal provisions are implemented by the authorities in a uniform and justifiable way, guidelines have been prepared in consultation with the drug manufacturers associations so as to outline standard operative procedures for taking action on samples of drugs declared spurious or not of standard quality. This would ensure that while real offenders are punished with heavy hand, law abiding manufacturers and sellers are not harassed or put to a disadvantageous position.

During deliberations, the Drugs Controller, Kerala was of the view that no permission is required for launching prosecutions by the Drug Inspectors. The Drugs Controller, Karnataka however, stated that the Hon'ble High Court of Karnataka had opined in a case that permission from higher authorities is required for launching of the prosecution by the Drug Inspector.

The DCC after deliberations accepted the guidelines for the purpose of uniform implementation of the amended Drugs and Cosmetics Act in the country.

### **AGENDA S-2**

#### **INDISCRIMINATE USE OF ANTI-TB DRUGS LEADING TO DEVELOPMENT OF DRUG RESISTANT STRAIN IN THE PATIENTS.**

DDG (TB) briefed the members that the Government of India is running a programme to contain tuberculosis in the country. Free treatment is provided at DOT centres for TB patients. It has success rate of 85 to 90%. In India around 30% patients are treated outside this programme. Indiscriminate and injudicious use of both first and second line of anti-TB drugs is contributing to the emergence of multi drug resistance (MDR), the treatment of which is very costly and has high rate of fatality. The rise in MDR cases is threatening the progress made by the Revised National TB Control Programme (RNTCP). He stated that one of the reasons is the easy availability of anti-TB drugs at the chemist shops even though the drugs are covered under Schedule H of the Drugs and Cosmetics Rules and can be sold only on the prescription of the physician. He desired that the State Drug Controllers may ensure that these drugs are not sold without prescription to the patients and the chemist associations may be sensitized about the gravity of the situation.

Drug Controller, Kerala desired that certain chemist shops could be included in the DOTS programme. He also agreed for stopping the sale of anti-TB drugs outside the programme. DDG (TB) agreed to conduct a pilot study in Kerala during which anti-TB drugs would be made available under the programme or against the prescription of authorized physician only.

DCC recommended that the members may take up the matter with the respective chemist associations to sensitize them and request their members not to sell anti-TB drugs without proper prescription. The Drug Inspectorate staff should also ensure through inspections that the directions are complied with by the chemists.

### **AGENDA S-3**

#### **CONSIDERATION OF THE PROPOSAL TO AMEND RULE 127 TO INCLUDE TITANIUM DIOXIDE COATED MICA PEARLESCENT PIGMENTS FOR THE PURPOSE OF USING AS COLOUR IN DRUGS**

The members were informed that office of DCG(I) has received an application from M/s Colorcon Asia Pvt. Ltd., for amendment of rule 127 so as to permit CANDURIN colors to be used in the manufacture of drugs for colouring tablets and capsules. These colours are permitted in food as well as Pharmaceuticals in USA and European countries.

DCC after deliberations agreed to the proposed amendment.

#### **AGENDA S-4**

### **CONSIDERATION OF THE PROPOSAL TO AMEND RULE 76 A FOR MAKING A PROVISION FOR GRANT OF LICENCES BY THE DRUGS CONTROLLER GENERAL (INDA) IN RESPECT OF DRUGS COVERED UNDER THE CLAA SCHEME.**

DCG (I) stated that drugs belonging to the categories of LVP or Sera and vaccines are licensed under the CLAA scheme and are required to be approved by the Central Licensing Approving Authority i.e. DCG (I). Many of formulation of these categories are manufactured on loan licences for which the licences are granted by State Licensing Authorities under rule 76 A. As many of the formulations are considered critical in nature, the rule 76 A is required to be amended for introducing necessary provision so that these are covered under CLAA scheme.

DCC after deliberations agreed to the proposal.

### **ADDITIONAL AGENDA ITEMS RAISED WITH THE PERMISSION OF THE CHAIR**

#### **AGENDA S-5**

**(DELHI)**

#### **MISUSE OF OXYTOCIN INJECTION**

The Drugs Controller, Delhi raised the issue of misuse of oxytocin injection in the country. The drug is manufactured in clandestine way and used by dairy owners to extract milk from cows and buffalos. It has also been reported that it is also used in the growing of vegetables to increase their size. The Drug Control Department, Delhi arrested two persons which revealed that the drug was manufactured in Bihar and surrounding areas in clandestine way. The drug oxytocin has a definite place in the medical treatment and is used by gynaecologist. However, the drug is being misused to a large extent. He requested the members to ensure that clandestine manufacture of the drug under their jurisdiction is curbed through extensive survey and raids.

The members agreed that misuse of oxytocin injection has been reported in many parts of the country and a strong vigilance is required to stop its clandestine manufacture.

**AGENDA NO. S- 6**

**(RAJASTHAN)**

**PROVISION TO INCORPORATE PUNISHMENT FOR “PROFESSIONAL DONORS” AND EXCHANGE OF BLOOD AMONGST THE BLOOD BANKS”**

Shri D.K. Shringi, DC, Rajasthan stated that cases of blood donation by professional donors were detected in Rajasthan and a demand has been made that the professional donors should be punished by the courts. The term “professional donor” is prescribed in Part – X-B of the Schedule F to the Drugs and Cosmetics rules and criteria for blood donation by a donor are also given under the same Schedule. The professional donor who gives false information for monetary consideration, should be made punishable by the court. For this purpose a penal clause may be inserted under the Act.

The members were of the view that Section 27 (d) which deals with the sale of the drug in contravention of any other provisions of this chapter or any rule made their under may be invoked in such cases.

Shri Shringi further desired that transfer of blood from one blood bank to another depending upon excess availability and to avoid wastage of precious commodity may be permitted under the rules.

It was opined that as the proposals relate to blood, the matter may be further examined in consultation with NACO and the Ministry of Health and Family Welfare.

**ANNEXURE I****List of the participants of Drugs Consultative Committee meeting held on 29.06.2009  
under the Chairmanship of Dr. Surinder Singh, Drugs Controller General (India)****A. List of participants from State Drugs Control Organisations**

# Annexure C

IN THE HIGH COURT OF KARNATAKA AT BENGALURU

DATED THIS THE 04<sup>TH</sup> DAY OF DECEMBER 2015

BEFORE:

THE HON'BLE MR. JUSTICE ANAND BYRAREDDY

WRIT PETITION No.30513 OF 2009 (GM-RES)

BETWEEN:

Karnataka Drugs and  
Pharmaceuticals Manufacturers  
Association, 3B,  
Bharath Deluxe Apartment,  
44/1, A and B, Fairfield Layout,  
Race Course Road,  
Bangalore 560 001.  
Represented by its Secretary,  
Mr. Jatish Sheth.

...PETITIONER

(By Shri Rajendra M.S., Advocate for M/s. Holla and Holla)

AND:

1. Central Drugs Standard  
Control Organisation,  
Directorate General of Health  
Services, Ministry of Health and  
Family Welfare,  
Food and Drugs Administration Bhawan,  
Kotla Road,  
New Delhi 110 002.

2. Drugs Controller for  
The State of Karnataka,  
Drugs Control Department,  
Next to Carlton House,  
Palace Road,  
Bangalore 560 001.

...RESPONDENTS

(By Smt. M. Birdy Aiyappa, Advocate for Respondent No.1;  
Smt. Pramodhini Kishan, Government Pleader for Respondent  
No.2)

\*\*\*\*\*

This Writ Petition filed under Articles 226 and 227 of the Constitution of India, praying to declare that the first respondent , is not the competent authority to certify products which are meant for export under the who scheme and quash the order of the first respondent dated 1.9.2009 vide Annexure-C.

This petition having been heard and reserved on 4.11.2015 and coming on for pronouncement of orders this day, the Court delivered the following:-

### **ORDER**

Heard the learned Counsel for the petitioner and the learned Counsel for the respondents.

2. The facts of the case are as follows:

The petitioner is said to represent the pharmaceutical industry in the State of Karnataka. It has been formed with the

object of protecting the interest of the manufacturers of pharmaceuticals in the State.

It is contended that in India, the regulation of the licensing requirements and other matters in respect of import, manufacture, distribution and sale of drugs are governed by the Drugs and Cosmetics Act, 1940 (Hereinafter referred to as the 'DC Act', for brevity) and the Drugs and Cosmetics Rules, 1945. (Hereinafter referred to as the 'DC Rules' for brevity). The said Act and Rules only provide for the import, manufacture, distribution and sale of drugs. There are no provisions regarding the licensing requirement for the export of drugs.

A manufacturer, who has obtained a license to manufacture a drug as contemplated under Chapter IV of the DC Act, is entitled to export the drugs after fulfilling the requirements of the importing country, in terms of quality parameters, labelling, registration requirements and documentation. As different countries have different regulatory procedures, the World Health Organization (WHO) has framed a Scheme for product

certification in matters pertaining to import of drugs by the countries who are signatories to the said Scheme. The certification protocol is called 'Certificate of Pharmaceutical Product' (COPP).

The Scheme aforesaid envisages the certification of the license status of the manufacturer, the particulars of the drug and that the manufacturer has complied with the 'Good Manufacturing Practices', and that the manufacturing unit is subject to periodic inspection.

It is said that WHO has issued guidelines for the implementation of the Scheme. According to the same, a list of competent authorities of countries participating in the WHO Certification Scheme on the quality of pharmaceutical products marketed internationally are specified. As regards India, in respect of each state, the respective State Drug Controller is nominated as the competent authority for the purposes of the product certification. The second respondent herein was considered the Competent Authority for product certification

under the Scheme. And since the year 1994, the second respondent is said to be exercising the power in that regard.

It is said that during the year 2008, products worth about Rs.1536 crore were exported from Karnataka, which was about 5% of the entire country's export of drugs. The second respondent had levied a 'user fee charge' on such exports. On an average, the second respondent issues over 25000 certificates annually and it would translate to a revenue of over Rs.1 crore, annually.

It however, transpires that the first respondent abruptly chose to take over the functions of the second respondent in the year 2009. This, it is said, is in complete contravention of the Guidelines issued by the WHO. It is the grievance of the petitioner that this move on the part of the first respondent causes severe hardship to the drug manufacturers. It has created an avoidable duplication of the process of inspection and control. It is stated that in the matter of export of drugs, time schedules are to be strictly adhered to. Any delays run the risk of the concerned manufacturer being blacklisted. Every drug exported requires to

be separately certified. There are said to be over 3400 products exported from Karnataka, to over 75 countries. In view of the centralization of the certification process on an all India basis, delay is inevitable and in the result, the market is destroyed. The effect on the industry and the people who depend on it for their livelihood is devastating. The State exchequer also stands to lose revenue.

It is in this background that the writ petition is filed.

3. It is asserted that the WHO guidelines indicate that the State Drug Controllers are alone competent to certify each product sought to be exported under the WHO Scheme.

It is urged that the first respondent had no power to issue the impugned notification and that it does not indicate the reasons for such action. The said change imposes a cumbersome duplication of procedure causing serious delays and hardship to manufacturers exporting their pharmaceutical products.

4. The first respondent has contested the petition and it is stated that the petition proceeds on an incorrect and misleading premise. It is emphasized that the WHO has recognized only the Drugs Controller General of India as the Competent Authority with respect to issuance of COPP. It is asserted that since the year 1995, as decided at the Drugs Consultative Committee meeting, a statutory body under the DC Act held on 24.2.1995, where all the State Drug Controllers, as members were present, there was to be only one authority, namely, DCGI to issue the COPP for the pharmaceutical products exported. It is a voluntary function of the National Regulatory Authority to implement the WHO Scheme in India, to ensure that the quality of the products conforms to international standards. The provisions of the Act and Rules do not prescribe that the Second respondent issue the COPP. And again at a meeting of the DCC on 17.3.1998, it was agreed that till such time the issuance of certificates at the national level commences by the National Regulatory Authority, the State Drug Control Authorities would process the pending applications. This

measure was warranted as it had been noticed by WHO that there was variance in issuance of COPP on account different interpretations of the guidelines by the State Drug Controllers of different states.

The contention that there would be a duplication of the process of inspection and certification or that there would be an inordinate delay, it is contended, is also an imagined apprehension. It is stated that the first respondent has established zonal and sub-zonal offices through out the country, which offices would be competent to issue the certification on behalf of the first respondent. It is claimed that with state of the art facilities now available to the first respondent, it is contended , that there is need be no concern of any delay and hardship to the manufacturers.

5. In the light of the above contentions, it is to be noticed from the material produced on record that the sequence of events is borne out from a perusal of the same. As for instance, the initial transition of the regime in the first respondent assuming exclusive

authority to issue the COPP and the difficulties faced during the transitory period is evident from the following letter issued to the second respondent by the first respondent.

*“CENTRAL DRUGS STANDARD  
CONTROL ORGANISATION  
D.G.H.S., Min. of Health & Family  
Welfare, Government of India*

*Camp at Chennai  
No.50-4/Gen/SZ/2007-618 Dated 30<sup>th</sup> April 2007*

*Dr. B.Sripathi Rao  
Drugs Controller I/c,  
Karnataka: Bangalore*

*Sir*

*As you are aware the WHOGMP Certification inspections are to be carried out as per the guidelines laid down in the DCC. The procedures indicate that an applicant seeking WHOGMP Certificate has to make an application induplicate, forward one to concerned zonal office and the other to concerned state. The zonal officers based on the number of applicants received finalises the programme of inspections and the states depute their officers so that joint inspection is carried out by the Central and State Drugs Inspectors together and also based on the need have an expert in the inspection team like cases of vaccines etc. The responsibility of writing the report is with the Central drugs Inspector and salient observations are recorded in the standardized check list prepared for the purpose. Based on the recommendations of the inspection*

*team, the State Drugs Controller, issues the COPP to the applicant with an intimation to the zonal office. The validity of the GMP certification is restricted initially to be granted for 2 years. Under special circumstances it can be extended for one more year.*

*In case of application for COPP for additional products, the applicant shall apply to zonal office with requisite information like stability date, validation report etc. which shall be by the zonal office and if satisfied, recommendations are forwarded by the zonal officer to issue COPP for additional products with the condition that the validity shall get restricted based on the inspection. However if the state/zonal officer considers the inspection is warranted to consider for additional products, he shall carry out the joint inspection.*

*I have been informed by the Deputy Drugs Controller (India) south Zone that for the last 16 months your office is carrying out WHO,GMP inspections and granting COPP independently. This is against the procedures laid down and also the understanding the GOVERNMENT OF INDIA given to World Health Organization.*

*I shall appreciate if you can look into the matter and ensure that the procedures laid down in DCC are followed in case of WHO-GMP Certification. If there are any specific problems of delay and non co-operation by the zonal office, you are at liberty to write to me so that we can find a solution in the matter.*

*Yours faithfully,*

*Sd/-*

*(Dr. M. Venkateswarlu)*

*DRUGS CONTROLLER GENERAL (INDIA)''*

And the fact that the first respondent had achieved the object of ensuring that the Guidelines issued by the WHO were being adhered to is evident from the congratulatory letter to the first respondent from the WHO, which is as follows:-

*“Tel.direct: +41 22791 4050/3904      Dr.Surinder Singh  
 Fax direct:+41227914971              Drugs Controller  
 E-mail: Woodd @who.int              General (India)

     India.*

*Your reference.*

*Dear Dr Singh,*

*I would like to thank you for the active support that you have provided to assist WHO by conducting a parallel review, with Health Canada, of the Meningococcal A vaccine that is of great importance to combat the yearly meningitis epidemic that affects children in approximately 25 countries in Africa.*

*We are also very satisfied to note that most of the WHO recommendations that were issued in April 2009, following the NRA assessment, have been very closely followed up. We take particular note that some new regulations have been enforced such as:*

- 1. Use of an adapted ICH Common Technical Dossier (CTD) based on the Canadian experience, to submit vaccine applications for marketing authorization.*

2. *In depth vaccine evaluations for marketing authorization and clinical trials, tested with the JE and Meningococcal applications submitted in April and June 2009.*
3. *Issuing of "Certificate of Pharmaceutical Product approvals" (COPP) performed by the Central Drugs Standard Control Organization (CDSCO) only, whereas in the past it was decentralized.*
4. *Establishment of a quality management system team, with about 15 staff dedicated only to vaccines and biologicals, and an additional 30 staff expected in CDL Kasauli.*
5. *Updated web site with online feedback on decisions by DCG(I) office.*
6. *Continuous GMP enforcement in all vaccines facilities as per international recognized standards of GMP.*

*We appreciate the steps taken by the National Regulatory Authority of India to implement the above recommendations from WHO. The above decisions will help DCG(I) to comply with globally recognized international standards, particularly points 3 and 6, that we believe are critical to the quality of products being exported out of India.*

*cc: WR, India*

*Dr P.Francis, WR Office India*

*Dr A. Thapa, SEARO, Coordinator, IVD*

*Dr A. Chawla, SEARO/IVD/VSQ*

*Mr S.Guichard, SEARO/Thailand*

*Mr L.Belgharbi, HQ/IVB/QSS*

*Dr N. Dellepiane, HQ/IVB/QSS*

*Dr S. Singh, New Delhi*

*18-370-42SEAR*

*As you know we are closely following the implementation of all WHO NRA recommendations and*

*will continue to provide support for the NRA Institutional Development Plan (IDP) as agreed. We would like to inform you that the next visit of Mr. Lahouari Belgharbi is scheduled on 28 October 2009 and we shall be grateful if you would arrange for an update of the NRA IDP with the whole vaccine team between 1 pm and 5 pm in your office. In addition to the above, we assure you that we will provide you with our technical support in the implementation of the IDP for the NRA of India.*

*Thank you for your continued cooperation.*

*Your sincerely,*

*Sd/-  
(Dr. David Wood)  
Coordinator  
Quality, Safety and Standards”*

In the above circumstances, it cannot be said that the grounds urged in the petition or the apprehensions expressed - merit consideration. Consequently, the petition is dismissed.
